**1.Create 'index.html' for a tuition class with a name you invent, using the full HTML boilerplate (DOCTYPE, html, head with a title, body), one h1 holding the class name and one paragraph of at least 30 words about the class. Hint: Add `<meta charset="UTF-8">` inside head, otherwise the ₹ sign may show as broken characters later. Constraint: The page must contain exactly one h1.**

1. index.html

```
<!DOCTYPE html>
<html>
<head>
  <meta charset="UTF-8">
  <title>Bright Future Tuition Classes</title>
</head>
<body>

  <h1>Bright Future Tuition Classes</h1>

  <p>
    Bright Future Tuition Classes provides quality education
    for students from school level. We offer expert teachers,
    easy learning methods, regular tests, and personal attention
    to every student. Our goal is to improve students' knowledge,
    confidence, and academic performance. We provide affordable
    fees and a friendly learning environment for everyone.
  </p>

</body>
</html>
```

2. Important points

- <!DOCTYPE html> – Defines an HTML5 document.
- <html> – Root element of the page.
- <head> – Contains page information.
- <meta charset="UTF-8"> – Supports special characters like ₹.
- <title> – Sets the browser tab title.
- <body> – Contains visible webpage content.
- <h1> – Displays the main heading (exactly one).
- <p> – Displays the class description.

**2.Extend 'index.html' with an h2 headed 'Subjects' followed by an unordered list of five subjects, and an h2 headed 'How to Join' followed by an ordered list of four steps of at least three words each. Constraint: Use real list tags; do not fake a list with line breaks or dashes.**

```
<!DOCTYPE html>
<html>
<head>
  <meta charset="UTF-8">
  <title>Bright Future Tuition Classes</title>
</head>
<body>

  <h1>Bright Future Tuition Classes</h1>

  <p>
    Bright Future Tuition Classes provides quality education
    for students from school level. We offer expert teachers,
    easy learning methods, regular tests, and personal attention
```

```
    to every student. Our goal is to improve students' knowledge,
    confidence, and academic performance. We provide affordable
    fees and a friendly learning environment for everyone.
  </p>

  <h2>Subjects</h2>

  <ul>
    <li>Mathematics</li>
    <li>Science</li>
    <li>English</li>
    <li>Computer</li>
    <li>Social Science</li>
  </ul>

  <h2>How to Join</h2>

  <ol>
    <li>Visit our tuition class.</li>
    <li>Meet our experienced teachers.</li>
    <li>Choose your preferred subjects.</li>
    <li>Complete the admission form.</li>
  </ol>

</body>
</html>
```

Important HTML tags

| Tag | Purpose |
| --- | --- |
| <h2> | Creates a second-level heading |
| <ul> | Creates an unordered (bullet) list |
| <ol> | Creates an ordered (numbered) list |
| <li> | Adds an individual list item |

**3.Add an h2 headed 'Weekly Timetable' to 'index.html' followed by a table with a header row (Day, Time, Subject, Fee in ₹) and six data rows, using thead, tbody, th and td, where one row has a td that spans two columns using colspan. Hint: A cell with `colspan="2"` takes the space of two cells, so delete one td from that row or the columns will misalign. Constraint: Build the table with table tags only; do not line up text with spaces.**

```
<!DOCTYPE html>
<html>
<head>
  <meta charset="UTF-8">
  <title>Bright Future Tuition Classes</title>
</head>
<body>

  <h1>Bright Future Tuition Classes</h1>

  <p>
    Bright Future Tuition Classes provides quality education
    for students from school level. We offer expert teachers,
    easy learning methods, regular tests, and personal attention
    to every student. Our goal is to improve students' knowledge,
    confidence, and academic performance. We provide affordable
```

```
    fees and a friendly learning environment for everyone.
</p>

<h2>Subjects</h2>

<ul>
    <li>Mathematics</li>
    <li>Science</li>
    <li>English</li>
    <li>Computer</li>
    <li>Social Science</li>
</ul>

<h2>How to Join</h2>

<ol>
    <li>Visit our tuition class.</li>
    <li>Meet our experienced teachers.</li>
    <li>Choose your preferred subjects.</li>
    <li>Complete the admission form.</li>
</ol>

<h2>Weekly Timetable</h2>

<table border="1">

    <thead>
        <tr>
```

```
      <th>Day</th>
      <th>Time</th>
      <th>Subject</th>
      <th>Fee in ₹</th>
    </tr>
</thead>

<tbody>
    <tr>
      <td>Monday</td>
      <td>4:00 PM - 5:00 PM</td>
      <td>Mathematics</td>
      <td>500</td>
    </tr>

    <tr>
      <td>Tuesday</td>
      <td>4:00 PM - 5:00 PM</td>
      <td>Science</td>
      <td>500</td>
    </tr>

    <tr>
      <td>Wednesday</td>
      <td>4:00 PM - 5:00 PM</td>
      <td>English</td>
      <td>400</td>
    </tr>
```

```
        <tr>
          <td>Thursday</td>
          <td>4:00 PM - 5:00 PM</td>
          <td>Computer</td>
          <td>600</td>
        </tr>

        <tr>
          <td>Friday</td>
          <td>4:00 PM - 5:00 PM</td>
          <td colspan="2">Special Revision Class</td>
        </tr>

        <tr>
          <td>Saturday</td>
          <td>4:00 PM - 5:00 PM</td>
          <td>Social Science</td>
          <td>400</td>
        </tr>
      </tbody>

    </table>

</body>
</html>
```

Understanding important table tags

| HTML tag | Meaning |
| --- | --- |
| <table> | Creates a table |
| <thead> | Contains the table heading |
| <tbody> | Contains table data |
| <tr> | Creates a table row |
| <th> | Creates a heading cell |
| <td> | Creates a normal data cell |

**4.Finish 'index.html' by adding your own image named 'class_photo.jpg' with alt text, one link to 'https://example.com' that opens in a new tab, and one link that jumps to the 'Weekly Timetable' heading. Then create a new public GitHub repository named 'tuition-class-site' and push the folder. Hint: `target="_blank"` opens a link in a new tab; a jump link needs `href="#timetable"` and `id="timetable"` on the heading. Constraint: Use a photo or drawing you made yourself, not one downloaded from a website.**

Bright Future Tuition Classes
