Session 4

1. Update index.html

Open index.html in VS Code and replace its body with this code.

```
<!DOCTYPE html>
<html>
<head>
  <title>ABC Tuition Classes</title>
</head>
<body>

  <header>
    <h1>ABC Tuition Classes</h1>
  </header>

  <nav>
    <a href="index.html">Home</a>
    <a href="enquiry.html">Enquiry</a>
    <a href="faculty.html">Faculty</a>
  </nav>

  <main>

    <article>
      <h2>About Our Classes</h2>
      <p>
```

```
      ABC Tuition Classes provides quality education
      for students. We help students improve their
      knowledge and skills.
    </p>
</article>

<article>
    <h2>Our Subjects</h2>
    <ul>
      <li>Mathematics</li>
      <li>Science</li>
      <li>English</li>
      <li>Computer</li>
      <li>Social Science</li>
    </ul>
</article>

<article>
    <h2>Class Timetable</h2>
    <table border="1">
      <tr>
        <th>Subject</th>
        <th>Time</th>
      </tr>
      <tr>
        <td>Mathematics</td>
        <td>9:00 AM</td>
      </tr>
```

```
        <tr>
          <td>Science</td>
          <td>10:00 AM</td>
        </tr>
        <tr>
          <td>English</td>
          <td>11:00 AM</td>
        </tr>
      </table>
    </article>

  </main>

  <footer>
    <p>© 2026 ABC Tuition Classes. All Rights Reserved.</p>
  </footer>

</body>
</html>
```

2. Update enquiry.html

Add the same header, navigation and footer. Keep your existing enquiry form inside the article.

```
<!DOCTYPE html>
<html>
<head>
  <title>Enquiry - ABC Tuition Classes</title>
</head>
```

```
<body>

  <header>
    <h1>ABC Tuition Classes</h1>
  </header>

  <nav>
    <a href="index.html">Home</a>
    <a href="enquiry.html">Enquiry</a>
    <a href="faculty.html">Faculty</a>
  </nav>

  <main>

    <article>
      <h2>Student Enquiry Form</h2>

      <form action="#" method="get">

        <label>Name:</label>
        <input type="text" name="name" required>
        <br><br>

        <label>Phone:</label>
        <input type="tel" name="phone" required>
        <br><br>

        <label>Subject:</label>
```

```
        <select name="subject">
          <option value="">Choose a subject</option>
          <option>Mathematics</option>
          <option>Science</option>
          <option>English</option>
          <option>Computer</option>
          <option>Social Science</option>
        </select>
        <br><br>

        <label>Mode:</label>
        <input type="radio" name="mode" value="Online"> Online
        <input type="radio" name="mode" value="Offline"> Offline
        <br><br>

        <label>Message:</label>
        <br>
        <textarea name="message" rows="4" cols="40"></textarea>
        <br><br>

        <button type="submit">Submit</button>
        <button type="reset">Reset</button>

      </form>
    </article>

</main>
```

```
  <footer>
    <p>© 2026 ABC Tuition Classes. All Rights Reserved.</p>
  </footer>

</body>
</html>
```

3. Create faculty.html

Create a new file named faculty.html in the same folder.

```
<!DOCTYPE html>
<html>
<head>
  <title>Faculty - ABC Tuition Classes</title>
</head>
<body>

  <header>
    <h1>ABC Tuition Classes</h1>
  </header>

  <nav>
    <a href="index.html">Home</a>
    <a href="enquiry.html">Enquiry</a>
    <a href="faculty.html">Faculty</a>
  </nav>

  <main>
```

```
  <article>
    <h2>Mr. Rahul Sharma</h2>
    <h3>Mathematics Teacher</h3>
    <p>
      Rahul Sharma has five years of teaching experience.
      He makes mathematics easy and interesting for students.
    </p>
  </article>

  <article>
    <h2>Mrs. Priya Patel</h2>
    <h3>Science Teacher</h3>
    <p>
      Priya Patel teaches science with practical examples.
      She helps students understand difficult science topics.
    </p>
  </article>

  <article>
    <h2>Mr. Amit Shah</h2>
    <h3>English Teacher</h3>
    <p>
      Amit Shah teaches English grammar and communication.
      He helps students improve their reading and writing skills.
    </p>
  </article>

</main>
```

```
  <footer>
    <p>© 2026 ABC Tuition Classes. All Rights Reserved.</p>
  </footer>

</body>
</html>
```

4. Test all pages and push to GitHub

Follow these steps carefully.

Step 1: Open all three HTML files

- Open index.html in Chrome.
- Click Home, Enquiry and Faculty.
- Check that all links work.
- Repeat the same process from enquiry.html and faculty.html.

Step 2: Check using Chrome DevTools

1. Press F12 in Chrome.
2. Open the Elements tab.
3. Press Ctrl + F.
4. Search for <header.
5. Repeat for <nav, <main and <footer.

X marks the spot: Landmark elements - Steve Frenzel

stevefrenzel.dev

Each page should have exactly:

HTML tag	Required count
<header>	1
<nav>	1
<main>	1

<footer> 1

Step 3: Save all files

Press Ctrl + S in VS Code.

Step 4: Commit and push to GitHub

Open the VS Code terminal and execute these commands one by one:

git add index.html enquiry.html faculty.html

git commit -m "Make site semantic"

git push origin main

Final checklist

Assignment progress

0/8

Updated index.html with semantic tags

Updated enquiry.html with identical header, nav and footer

Created faculty.html with three teacher articles

Added Faculty link to all three pages

Tested all navigation links

Checked semantic tag counts in DevTools

Committed with message Make site semantic

Pushed changes to tuition-class-site

Important: If your GitHub default branch is master instead of main, use git push origin master.

Your assignment is complete once all three files are pushed successfully to the tuition-class-site repository.
